**Exercise 7: Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the questions.**

The most obvious advantage of living green is that it helps reduce environmental pollution. This is done by practising the 3Rs. The first R means choosing products very carefully to reduce waste as much as possible. Reusing involves the repeated use of items. The third R is about separating materials that can be recycled and later used for a new purpose.

There are also economic benefits to living green. Reducing the use of energy and water can help save money on household bills. Furthermore, reusing products and materials is another way to make saving. **It** helps save on production costs since creating new products wastes materials and is expensive. Recycled products also last longer than new ones, making them a better and more eco-friendly option.

Lastly, going green offers health benefits. It reduces air pollutants by making the air we breathe cleaner and healthier. This means fewer diseases and doctor's appointments. Another way to improve your health is to **purchase** organic foods and green products for your household. They don't use harmful chemicals that can lead to health issues. In turn, you are also supporting responsible farming methods that protect the environment.

## Reading comprehension

*Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.*

The Beatles were one of the most influential music groups of the rock era, and many consider them the best musical group on Earth. Initially, they affected the post-war baby boom generation of Britain and the U.S. during the 1960s, and later the rest of the world. Certainly, they were the most successful group, with global sales exceeding 1.1 billion records.

While they were originally famous for light-weight pop music (and the extreme hysterical reaction they received from young women), their later works achieved a combination of popular and critical acclaim perhaps unequaled in the 20<sup>th</sup> century.

Eventually, they became more than recording artists, branching out into film and - particularly in the case of John Lennon - political activism. They achieved an iconic status beyond mere celebrity, with far reaching effects difficult to exaggerate.

The members of the group were John Lennon, (James) Paul McCartney, George Harrison, and Ringo Starr (Richard Starkey), all from Liverpool, Merseyside, England. Original drummer Pete Best was asked to leave the group just before it started recording. Stuart Sutcliffe was with them in Hamburg but also left.

Beatlemania began in the UK and exploded following the appearance of the Beatles on The Ed Sullivan Show in the United States, on February 9<sup>th</sup>, 1964. The pop-music band became a worldwide phenomenon with worshipful fans, hysterical adulation, and denunciations by culture commentators and others such as Frank Sinatra.
